Subject: Animas FY15 RI data

All,

I understand the valid reason(s) to postpone our weekly Upper Animas meetings/conference calls, but we're anxious to understand the plan for assessing the RI data collected in the Upper Animas this year. A tremendous amount of new data exists and the information it may provide is extremely important for our planning and budgets. In spite of setbacks, we've made a lot of progress this year and we don't want to fall behind in our RI effort. thanks
